Important Information

We would again like to encourage you to either enter data of new patients, to complete missing data or to respond to queries of the monitors. **To help you with the latter you might find these following information helpful on how to respond:**

Query symbol

At "**Patient-Overview**" you will see all your patients in the SLIM-Registry. Each patient has on the right side a column entitled "**Query Status**". After monitoring of your patient you will see the **Query symbol** there. You have to click here to choose your patient. Afterwards you will find under the heading "**Navigation**" on the left side the "**Query-List**" at the bottom. Here all queries are listed for your chosen patient. If you click on a query you will be directed to the appropriate chapter with different boxes. You can now answer questions or change data. Saving means to save the whole chapter. At the end of each box in a chapter you will have the possibility to mention whether you have changed data due to the query. You will also have the possibility to send a message to the monitor.
